Duration: 1h 40

Notes

- Overview of new requirements for Sprint 3
- Noticed that we already have the main frame (UI) of the instructor dashboard
- Also noticed that we already display student's averages and their comments
- Need to just simply format the data correctly and accordingly
- Two new potential features to be added:
 - Students can contest a certain grade that they feel they were unfairly given/judged
 - Graphical representations/visualizations for instructors

Action items

- ☐ Assign roles to the team members
