

Oct 10, 2024 | 📅 SOEN341 Project Meeting Sprint 2 #01

Attendees: Marcelo, Christopher, Tristan, Fabio, Yash and Evelynne

Duration: 1 hour

Notes

- Going over Sprint Plan 2 requirements with the team
- Separating roles for the team
- Sorting students by classes (instructors can see students from their own class)
- Reviewed Fabio's initial plan (will be translated as an Epic)
- Students be able to log into multiple classes

Action items

- ☐ Assign members to their roles

Oct 14, 2024 | 📅 SOEN341 Project Meeting Sprint 2 #02

Attendees: Marcelo, Christopher, Fabio, Tristan, Yash and Evelynne

Duration: 25 min

Notes

- Going over the roles more into detail
- Discussed where to implement the "classes" function, where students can enroll into their specific classes
 - Ultimately decided to let the student be able to choose who they want to evaluate first
- The system will automatically sort the students into their classes when the instructors form groups from the students from the specific class that the instructor is currently teaching (for now)

Action items

- ☐ Start coding the prototype

Oct 24, 2024 | SOEN 341 Project Meeting Spint 2 #03

Attendees: Marcelo, Christopher, Fabio, Tristan, Yash and Evelynne

Duration: 45 min

Notes

- Going over the new prototype of the Peer Assessment app

- Tested the new evaluation rating system
- Backend not properly updated yet to incorporate the new two functions
- When a student rates their peer, they have to rate each team member's specific criteria first
- Would be better to rate each peer's individual assessment criteria before moving onto the next peer

Action items

- ☐ Update the backend of the code (Firebase)

Oct 27, 2024 | 📅 SOEN341 Project Meeting Sprint 2 #04

Attendees: tristan.a.lepage@gmail.com Marcelo P. Hernandez fabiokoshy@gmail.com
christophertan203@gmail.com yashnathani69@gmail.com eve_redjebian@hotmail.com

Duration: 45 min

Notes

- Discussed the newly updated application, including the updated feedback rating system
- Overview of the GitHub to see if everything necessary is present
- Overview of the Sprint plan to see if everything checks out
- User test showed that the instructor should be able to see an overview of the team's score instead of having to individually select a member, to then be able to see their score

Action items

- ☐ Upload all necessary documents to the repository before Sunday midnight
