

## Nov 21, 2024 | SOEN 341 Sprint 4 Meeting 01

Attendees: christophertan203@gmail.com eve\_redjebian@hotmail.com fabiokoshy@gmail.com  
Marcelo P. Hernandez tristan.a.lepage@gmail.com yashnath0708@gmail.com  
yashnathani69@gmail.com

Duration: 2h

### Notes

- Discussed the features that we will want to implement and finalize by the end of Sprint 4
- Grade contesting now will properly send a notification through the server, and will be received by the proper instructor in that class
  - Will need to also update the backend to implement this feature (in firebase)
- Could update the graphical visualization UI for better viewing as an instructor (easier to see)
- Talk about implementing a tool that will automatically search and repair software bugs (ex: *FindBugs*, *SonarQube*, etc)
  - Decided on *SonarLint*
- Update the instructor dashboard UI, specifically the peer evaluation comments display structure

### Action items

- ☐ Distribute the roles
- ☐ Update firebase (grade contest notification)
- ☐ Research and implement *SonarLint* in the repository
- ☐ Update instructor dashboard UI
- ☐ Update graphical visualization UI
- ☐ Organize the repository according to the specified format structure
